First and Second Semester (workshops for Eng. Deps)

Module 1

		Module Informat	ion	
Module Title	Workshops		Module Delivery	
Module Type	Basic		☐ Theory	
Module Code	WS	HE106		
ECTS		8	🗖 Lab	
Credit/year			Tutorial	
SWL/year		200	Practical	
			Seminar	
Module level	1	Semester of	1, 2	
		Delivery		
Module Leader	Training and	College		
	Workshops			
	Center			
Module Leader	Wissam H.	e-mail	Wissam.h.alawee@uotechnology.edu.iq	
Academic Title	Alawee			
	Prof.			
Module Tutor		Module Leader's	Ph.D.	
		Qualification		
Peer Reviewer	Iqbal Alshalal	e-mail	Iqbal.a.alshalal@uotechnology.edu.iq	
Name				
Scientific	1/6/2023	e-mail		
Committee				
Approval Date				
		Version Number	1	

Relation with other Modules			
Prerequisite Module	None	Semester	-
Co-requisite Module	None	Semester	-

Module Aims, Learning Outcomes, and Inductive Contents			
Module Aims	1-Preparing applied engineers in the field of engineering sciences who		
	are distinguished by a high level of knowledge and technological		
	creativity, in line with the strict standards adopted globally in quality		
	assurance and academic accreditation of the corresponding engineering		

	programs, while adhering to the ethics of the engineering profession.		
	2. Enable the student to know and understand work systems, risks, and the		
	factors surrounding them.		
	3. Enable the student to know and understand theoretical principles in		
	handicrafts and measurements.		
Module Learning	1- To familiarize the student with the vocabulary of occupational safety and its		
Outcomes	importance in the field of work.		
	2- Acquisition of the student's manual operation skills, for example (Filings and		
	Tinsmith workshops), and mechanical operation skills, for example (Turning).		
	3- Acquisition of the student's mechanical forming skills, for example (Casting		
	and Blacksmithing).		
	4- The student acquires basic engineering skills such as Welding, Carpentry,		
	and Electrical installations that serve him in the professional field.		
	5- Enabling the student to operate the various machines and devices in		
	mechanical operations and formation.		
	6- Cooperative learning by working collectively.		
Inductive Contents			
	1. Introducing the student to the basics of the art of turning and milling,		
	types of cold working machines, the skill of dealing with them,		
	choosing metals, operational tools, and methods of measurement and		
	standardization		
	2. Introducing the student to the basics of the art of casting, hot forming,		
	metal selection, method of working on casting furnaces and tools, and		
	manufacturing casting molds		
	3. Familiarize students with the basics of cars and the systems they use, as		
	well as maintenance, disassembly, and assembly processes.		
	4. Introducing students to the basics of household and industrial electrical		
	appliances, the skill of using tools, and designing electrical circuits and		
	control panels		
	5. Introducing the student to the basics of the art of plumbing, leveling		
	surfaces, the skill of using tools, manufacturing and installing		
	geometric snapes, and methods of measurement and standardization		
	6. Introducing the student to the basics of the art of blacksmithing, cold		
	and not forming of metals, the method of hardening them, and the skills		
	7 Introducing the student to the basics of the art of filing and manual		
	7. Introducing the student to the basics of the art of fining and manual energies of metals with the bala of menual electrical and mechanical		
	tools the skills of dealing with them, and the methods of measurement		
	and standardization		
	8 Introducing the student to the basics of the art of welding the		
	installation and assembly of matals, the types of welding machines, the		
	skills of dealing with them, the types of welding, and the methods of		
	measurement and standardization		
	measurement and standardization		

9. Introducing the student to the basics of the art of carpentry and
woodworking with the help of manual, electrical, and mechanical tools
the skills of dealing with them, and methods of measurement and
standardization

	Delivery Plan (Weekly Syllabus)
	Materials Covered
Week 1	Welding workshop. -Occupational safety and its importance in welding workshops. -Introduction to the basics of welding. -Electric arc exercise. -An exercise for welding straight lines in a circular motion (helical).

Week 2	Welding workshop
	- An exercise for welding straight lines with a crescent movement and other
	welding methods
	-Construction welding exercise.
Week 3	Welding workshop.
	-Welding two pieces together.
	-Written exam in practical exercises
Week 4	Casting workshop
	-Occupational safety and its importance in plumbing workshops.
	-Introduction to the basics of metal casting.
	-Simple wooden disc exercise.
	Half workout.
Week 5	Casting workshop
	Wheel exercise.
	Pushing arm exercise.
Week 6	Casting workshop.
	-Complete pulley exercise.
	-Circular pole exercise.
	-Written exam in practical exercises.
Week 7	Blacksmith Workshop
	-Occupational safety and its importance in blacksmithing workshops.
	-Introduction to the Basics of Blacksmithing.
	- Barbell adjustment exercise.
	-Eight-star exercise.
	- Exercise forming the number eight in English.
	-Six formation exercises in English.
Week 8	Blacksmith Workshop
	-An exercise forming the number five in English.
	- Exercise forming the number nine in English.
	-An exercise in forming an iron model in the form of a circle .
Week 9	Blacksmith Workshop
	- S-shape exercise.
	- Air hammer hot barbell exercise.
	- Exercise to form a circle on an electric bending machine.
	- Exercising cold and hot ornament formation.
	- A written exam in practical exercises .
Week 10	Automotive Workshop
	-Occupational safety and its importance in car maintenance workshops.
	-An introduction to cars and their basic parts.
	-Parts of the engine, how it works, types of engines, and methods of
	classification.
Week 11	Automotive Workshop
	- Open the engine and identify the parts

	-Lubrication system
	-Cooling system.
Week 12	Automotive Workshop
	-The fuel system.
	-The old and new ignition circuits.
	-Written exam in practical exercises.
Week 13	Turning Workshop
	-Introduction to lathe machines and identifying their parts
	-Measuring tools and the use of an oven measuring instrument
	-Circular column lathing exercise on different diameters.
XX7 1 1 4	
Week 14	
	-Exercise using the pen (semicircular R) brackets.
XX 1 17	An exercise in making different angles using a pen (square + angle pen 55).
week 15	Turning Workshop
	- Making shaft with different diameter exercises using (left and right pen)
	- Workout (Tube Connection).
Weels 16	-written exam in practical exercises.
week 16	Fitting workshop
	Occupational safety and its importance in filing workshops
	-An introduction to the basics of filing
Week 17	-Pen holder exercise preparation and preparation
week 17	Fitting Workshop Renail holder everyises finishing and assembling
Week 18	Fitting workshop
WCCK 10	-The catcher exercise
	- Clamping evercise
	Written evam in practical exercises
Week 19	Carpentry workshop
Week 19	-Occupational safety and its importance in carpentry workshops
	- An introduction to carpentry, its types, types of wood, tools used, and
	preparation Preparing the tools used
	Face modification exercise using the reindeer
Week 20	Carpentry workshop
	Garden fence work and how to connect its parts, the eight-star exercise
Week 21	Carpentry workshop
	- Wood smoothing exercise using smoothing paper
	- Wood dyeing exercise in three stages
	Final smoothing and varnishing exercise
	Written exam in practical exercises
Week 22	
	The tinsmith workshop
	Occupational safety and its importance in plumbing workshops

	An introduction to plumbing, its tools, and plumbing stages
	Planning and marking exercise on metal plates
Week 23	The tinsmith workshop
	Geometric shapes
	Types of individuals and methods of individuals
	Geometric shape individuals exercise on a metal board
Week 24	The tinsmith workshop
	Cone members exercise
	- Exercise of cylinders with an oblique cut
	Roll forming operations
	Connection without the use of an intermediary
	Written exam in practical exercises
Week 25	Electric Workshop
	Occupational Safety and its importance in electrical workshops
	An introduction to the basics of electrical installations
	- Linking a simple circuit consisting of a lamp to the control of a single-way
	switch.
	Connect two lamps in series with one-way switch control.
	Connecting two lamps in parallel with the control of a single road switch.
	Connect two lights with one-way dual switch control.
Week 26	electric Workshop
	Connect a fluorescent lamp circuit to a one-way switch control
	Connecting an electric supply socket circuit to the control of a separate or
	combined one-way switch
	Written exam in practical exercises
Week 27	electric Workshop
	Occupational Safety and its importance in blacksmithing workshops
	Introduction to the basics of Blacksmithing
	- Barbell adjustment exercise
	Eight-star exercise
	- Exercise forming the number eight in English
	Exercise forming the number six in English
Week 28	supplementary training curriculum
	Welding workshop
	casting workshop
	Blacksmith's workshop
Week 29	supplementary training curriculum
	- Automotive workshop
	- Turning workshop
	Fitting workshop
Week 30	supplementary training curriculum
	Carpentry workshop

The tinsmith workshop
electric Workshop

Learning and Teaching Resources			
	Text	Available in the	
		library	
Required Texts	Workshop technology and measurements,	yes
